

Tecni Ovina PP

Complementary Compound Feed for Ewes in Gestation Stage during Prepartum Period

Composition

Crude Protein	16,00 %
Crude Cellulose	12,50 %
Crude Fat	4,00 %
Ashes	8,00 %
Digestible Fiber	18,00 %
Soluble Sugars	6,50 %

Vitamins and minerals (per kg)

Vitamin A	12.500 U.I.
Vitamin D3	2.500 U.I.
Vitamin E	150 mg
Selenium	0,38
Coccidiostatic	<i>Deccox</i>

How to use

Administer to ewes in the last third of the gestation stage.

Provide between 500 and 600 grams per animal, daily, always depending on the quality of the fodder that complements the diet.

Extreme care is recommended when selecting fungus-free and mold-free fodder.

Presentation

Flour or Granulated.

Package

Paper bag with 30 kg net weight.

Shelf Life

Up to 4 months after the date of manufacture.

Storage conditions

Store in the original package in a cool and dry place, away from direct sunlight.
