

PECDRY

Dryer for Piglets

Chemical Analysis

Ash insoluble in HCl	25 %
Total Ashes	90 %
Lead (Pb mg/Hg)	< 30
Cadmium (Cd mg/kg)	< 2
Dioxins (PCDD+PCDF)	< 0,5 ng WHO-PCDD/F-TEQ/kg
PCBs (type of dioxins)	< 0,5 ng WHO-PCB-TEQ/kg
pH (NF T 30-035)	8,5 +/- 0,5

Properties

Typical granulometric analysis:

+ 300µ (max.)	5 %
+ 250µ (max.)	10 %
+ 150 µ (max.)	30 %
Density (approximated)	1.1
Humidity	8 %
Solubility	Insoluble

Physical description / appearance

Light gray powder.

Composition

Raw materials of mineral and vegetable origin with absorbent properties; antiseptic flavoring substances.

How to use

Piglets: spray piglets after birth.
Breeding sows and boars: 40 grams per animal, daily.
Fattening rooms: 100 grams per pig, weekly.
Delivery rooms: spread on nests every day.

Package

Plastic bag with 25 kg net weight, with sealed inner bag.

Shelf Life

365 days after the date of manufacture.
