**Composition**

See product label.

**How to use**

Provide at the animal's discretion. Urea should only be given to animals with functional rumen. The maximum dose of urea should be achieved progressively. The maximum urea content should only be given to animals as part of regimes rich in easily digestible carbohydrates and reduced in soluble nitrogen. Ureic nitrogen should account for no more than 30% of the total nitrogen in the daily feed. Simultaneous oral use with macrolides should be avoided. Always keep clean water at the animals' disposal.

**Presentation**

16 mm cylindrical Tacos

**Package**

Paper bag with 30 kg net weight.

**Shelf Life**

Use preferably before the date on the label.

**Storage conditions**

Store in the original package in a cool and dry place, away from direct sunlight.
